DELIVERY MODELS

Managed Resourcing

Delegate QA for a project to an Abstracta-managed team.

QA Outsourcing

Delegate the entire QA process for execution on-site or off-site.

Staff Augmentation

Grow your team with our highly-skilled QA professionals.

Who we are

Boasting offices in Silicon Valley and Uruguay, Abstracta has over a decade of expertise, not just working with leading-edge proprietary and open source testing tools, but also developing specialized tools for a wide range of clients with a particular focus on the financial services, healthcare and technology sectors.

Abstracta was formed by a team of passionate, PhD-qualified computer engineers. We are relentless in our pursuit of innovative ideas and solutions to provide our customers with the best possible results.

Why us

A UNIQUE TEAM OF EXPERTS

REAL-TIME COMMUNICATION

WE EVALUATE THE BEST TOOL FOR TESTING

Our team of engineers will help you with every step of the QA process from tool selection to monitoring in order to speed up the time to market, minimize costs, and improve quality, thus improving customer satisfaction.

Testimonial

As a software development company, we define ourselves as our clients' technology partner. As such, it is great for us to be able to count Abstracta as a partner for our testing needs. They share our same focus and dedication and are very knowledgeable about testing. They are great to work with and adapt very easily to meet our customers' needs the same way we do. Great to work with, we definitely recommend them.
